The Model 12 Star Windmill

2 Pitmans 2
Gears 2

We are selling this windmill because we are certain it is the greatest on the market. It is practically two windmills built into one. It combines all other's strength, durability, pumping efficiency and smooth, noiseless running. Come in and let us point out some of the smooth features of this windmill. It will be well worth while to see to what an unusual state of efficiency the windmill has been developed in the Model 12 Star. Star Windmills have built a world-wide reputation, and the Model 12 is the greatest of all Stars. Come in and see it.

Increasing Safety and a Seven Per Cent Income

We have been selling industrial preferred stocks for twelve years at prices that yield a net income of 6 1/2 to 7 1/2%, and not one of our purchasers has ever lost a dollar of principal or income. Each of our current offerings is a splendid example of the type of securities we recommend, and a careful study of one is a guide to all the others.

If you have \$100 or more that you want to invest safely on a 6 1/2% basis, and for the future, we will send you a copy of our current offering, the 7 1/2% Cumulative Preferred Stock of the Erie Railroad Co., of Lima. The price is \$101 a share, and the net income 6.95%.

This company's certified audit, December 31, 1915, shows that it earned more than \$500,000 during the preceding 12 months—and that it had only \$240,000 of preferred stock outstanding on that date. When the present issue has been sold, the company will have a surplus of \$260,000—on which the annual dividend will be \$87,500 a year—more than one-fifth the net profits for 1915. The same financial statement shows net tangible assets of nearly \$1,000,000 or approximately \$150 per share, plus value of preferred stock.

We have prepared a 16-page booklet about the history of this established enterprise—and have included our own analysis of its prospects for the future. A detailed financial statement and a digest of the legal safeguards that appear on the preferred stock certificates are also contained in the booklet. If you want to increase your stock of knowledge about safe and profitable investments, including the Erie Railroad Co., please send us your name and address today so that we can mail you a copy of this booklet. Use a post card, and return now, before you forget.

BIG PRIMARIES COME IN AUGUST

Ohio Voters Will Choose All the Candidates.

NONE NAMED BY CONVENTION

Voters of All Parties Urged to Get Back of Clean, Capable Men Who Can Not Be Controlled by the Breweries—The Candidate Who Is Dominated by Big Interests Makes a Poor Public Servant.

Columbus, O.—(Special.)—The second Tuesday in August will be general primary day in Ohio. At this primary the political parties will nominate all candidates for office from governor and United States senator down to the smallest office in the county. There will not be a convention of any kind for the selection of any candidates. The voters themselves will choose all candidates.

Party committees will also be selected at the August primaries. Petitions of all candidates will be filed at least 60 days prior to the date of the primary election. Each petition must be signed by five party electors and the fee is one-half of 1 per cent of a year's salary, but can not exceed \$25.

At this August primary will be chosen candidates for governor, United States senator, congressional and legislative candidates, as well as candidates for state and county offices and for judicial positions.

The Ohio Anti-Saloon League urges voters of all parties to ignore interest in seeing that clean, capable, high grade men are nominated for all offices, and that special attention be given to the selection of anti-saloon candidates for congress and the legislature.

Experience shows that when a man who is nominated by the brewers and distillers is sent to a legislative body, he can be used by other special interests. It is not uncommon for big interests to loan legislators to each other.

The senator or representative who is under obligation to the wet interests makes poor senators and dangerous representatives of the people. He is unsafe and can not be trusted. The party man strengthens his party and ignores his legislative duties to the people when he votes at the primaries for an honest, clean candidate who is under no obligation to the liquor trust.

In Ohio right now the liquor camp has men at work in the counties and senatorial districts trying to divide the dry strength by encouraging the number of dry candidates for an office, expecting to get behind one wet candidate for the same place and nominate him. This is an old trick and the drys should not be caught by it.

There are enough anti-liquor voters in all parties to nominate anti-liquor candidates for all offices. What is needed is a little effort and now is the time to start. Mr. J. A. Carroll was the week-end guest of Mrs. Hibbard.

Mrs. Ann Stevens spent the latter part of the week in Toledo the guest of her daughter, Mrs. Lawrence Kest.

The Decoration Day services were enjoyed by a large number of people. The address by Judge Wolf was well worth hearing.

The Misses Nellie and Marie Hibbard returned after a visit in Shepherd, Michigan.

EFFECTS OF LIQUOR ON THE CHILDREN

Juvenile Court Judge Farr In-dicts Drink

Lisbon, O.—(Special.)—Judge L. A. Farr of the probate court of Columbiana county, who has also been juvenile court judge for the past seven years, in a published letter, says that a careful examination of the records of his court discloses the fact that 83 per cent of all cases arise either directly or indirectly from the traffic in intoxicating liquors. Continuing Judge Farr says:

"A large number of abnormal and defective children brought into our court have been affected directly or indirectly by strong drink. The most notable of these are the epileptics and those having chronic. A fair estimate would be about 65 per cent of the cases."

Portland Says Prohibition Pays.

The big city of Portland, Ore., is quite certain that prohibition pays. Arrests for drunkenness and vagrancy during January and February, 1915, under license, numbered 1,789. For the corresponding months of this year under prohibition, 531.

More buildings are under way and being planned than for many years. Traffic accidents show a big falling off. Savings accounts have grown in number and volume. Rental men say the demand for good store locations is greater than the supply.

Only Imaginary.

How true it is that most of our troubles are purely imaginary. For instance, we can read what one of these newspaper-syndicate doctors says and be right on the verge of coming down with double pneumonia or complete nervous breakdown or whatever he happens to mention on the particular day, but after a good night's sleep we always find that it wasn't our children and pyorrhea we shouldn't have any trouble at all.—Columbus (O.) Journal.

"TIRED TIRES"

Sometimes your tires get "tired" and you may think they are good only for the junk heap, but you would save yourself a lot of money if you would bring these "tired tires" to us and let us "tire" them. You bring us two tires, we repair and vulcanize where necessary, then we remove the rim from the tire having the best tread and stretch this tread over the other tire making a double tread of rubber and fabric that is positively puncture proof, or you bring us one tire that is badly worn and we will furnish a new tread or "re-tread" which accomplishes the same result as in the first method. The "tired" tire is retired; we double sew the tread and tie together on a powerful electric machine using double waxed linen thread which we guarantee never to rip.

By this process you can get from 3000 to 4000 miles from tires that you consider junk. One man said he had driven a DOUBLE TREAD TIRE over 5000 miles and was still using it.

AMERICA'S VETERAN SOLDIERS

(Continued from page one)

neither God or The Eternal Right ever gives to any man or men, to order men to maim and kill each other to gratify their caprice or to gain the objects of their desire. These veteran soldiers of the Union Army answered the call of Abraham Lincoln whom they respected as their president and whom they recognized as their brother man with his great tender heart filled to overflowing with love for his fellow countrymen and charged with the fire of zeal for the establishment of justice, right and freedom. They fought for sacred principles; they fought to stop the crime of slavery within the boundaries of this land, they fought to preserve and maintain the greatest Republic on which the sun of Heaven ever shone, and they fought that a government of the people, for the people and by the people might not perish from the earth.

They accomplished that for which they fought and to their lasting honor be it said when the task was done, those who had not fallen in battle extended the hands of good fellowship and fraternity to their vanquished foes and returned to their homes to take up again the industries they had dropped to respond to the call of arms and to resume the fulfillment of their duties as citizens.

When the story is told, as it often should be, of what these veteran soldiers have done let it not be forgotten that they paid the price of the fifty years of peace which all the people of this nation have enjoyed, a price which has given to all, wonderful opportunity and unparelleled prosperity. They paid the price! Can that price ever be measured in figures? Can it ever be repaid in any way or in any way within the power of men? America has not been slow in paying in the only way possible for the memory of those who have passed on, and giving honor and care to the living.

"The nation that holds in honor and affectionate remembrance the soldiers who braved even death for her will never lack for loyal devotion in the day of her peril."

I wish to close with the words of General John A. Logan in which he voices an appeal to which every American will heartily and cordially respond:

As of the 30th day of May returns with time's annual round let a grateful nation remember its dead and with floral offerings decorate the tombs of its fallen heroes while the dropping tear moistens the cold sod that covers their sleeping dust.

To them we owe the liberty we enjoy; to them we owe the preservation of our institutions. And shall we not hold them in grateful remembrance? Let this beautiful custom be perpetuated until the day shall become hallowed in the history of freedom. It carries with it the idea of duty and the dear cost of liberty. It brings fresh to mind the deeds of our country's martyrs.

It keeps alive and warm the greatest principles for which our sires poured out their blood, on which our republic is based.

Let us do this which was asked by a valiant soldier and let us as we face the great national questions which confront us as citizens bear in mind the lessons taught and the standards set by the deeds of America's Veteran Soldiers

A DIFFERENT KIND OF CIRCUS COMING

Wheeler Bros. Program and Extra Features All New.

At last something entirely new and different from the old style saw dust entertainment will be offered here when Wheeler Bros. Enormous Shows come to Wauseon, Wednesday June 7. So much is promised in a long program it will be wise first to carefully absorb the details displayed in the immense mile long street parade that will appear during the morning hours.

Among the all new features attractions under canvass will be the beautiful spectacle "David and Goliath," a historic review that will appeal to the children, the thrilling game of Polo on trained ponies, the sporting display "An Aristocratic Fox Hunt," the grand Blue Ribbon horse fair, the performing Polar Bears, the educated elephants, a complete circus company with funny clowns, also the best of band music. The war museum illustrating preparedness called "The World at War, and Defense of the Nation" introducing the famous Puck Guards, the Boy Scouts, aeroplanes, biplanes, armored motor cars, and the largest American flag ever made.

There will be a down town ticket office where seats and admission can be secured at the same prices as on the show grounds. In case of inclement weather tents of mercerized canvas, waterproof, will afford protection.

LACE CURTAINS.

I am prepared to laundry all kinds of lace curtains. Prices reasonable. Your patronage solicited. Mrs. B. P. Omior, 52-17

Ride over the State of Ohio. See its fertile grain fields and meadows—its orchard-crowned hills. Listen to its factories humming with the production of new wealth. Observe the thrifty, happy-looking homes on every side, and study the enlightened people you see everywhere. You will conclude that here, indeed, is a great and prosperous commonwealth.

Every corner of this great state shows its tribute of dividends from Geiger-Jones securities. Every county is richer today because of prosperous industries we have financed.

The function of The Geiger-Jones Company is to facilitate the production of wealth by gathering capital in small or from cutting places and putting it at the disposal of "rowing industries. During the past twelve years we have placed nearly \$20,000,000 of safe capital to the use of the leading growth of Ohio industries. At the same time we have 17,000 intelligent investors have bought between \$8,000,000 and \$20,000,000, per value, of preferred stocks from us without the loss of a dollar of principal or income.

These satisfied customers know the true facts about the value of our service—but there are thousands of people with \$100 or more to invest, who have never investigated the securities we market. If you are one of these and want to form a sound judgment about our 7 1/2% preferred stocks, send us your name and address on a post card and, without expense or obligation, we will mail you one copy of "A Portfolio of Anniversary Reports, with Photographs, of Manufacturing Enterprises Financed by The Geiger-Jones Company."
